School Name: _____ Date of Survey: _____

If more than one lot exit, which one? _____

Start Time: _____ End Time: _____

Driver - **YES** Seat Belt

Driver - **NO** Seat Belt

--	--

Passenger(s) - **YES** Seat Belt

Passenger(s) - **NO** Seat Belt

--	--

HOW TO CONDUCT THE SEAT-BELT SURVEYS

1. Conduct this survey in March or April 2013 (prior to installing the new Buckle-Up sign at this parking lot exit) and use a new survey sheet to conduct a survey in September 2013.
2. Designate two (2) people per parking lot exit. When a car stops at the stop sign, one person observes the driver and any passengers and calls out the info so the other person can tally the information.
3. Position yourselves at a parking lot exit during a time when students are typically leaving the parking lot (end of school day, after a sporting event, etc.).
4. Vehicles with tinted windows or driving too fast can be skipped.
5. When you reach 100 tallies on the form, start a new form. Please number the forms 1 of 2, 2 of 2, etc.
6. Send completed forms to **Traffic Education-OPI, PO Box 202501, Helena, MT 59620** or fax to **(406) 444-2955, Attn: Patti Borneman**. You can wait to send the Before and After surveys together, but please send to OPI no later than **SEPTEMBER 27, 2013**.
